Scientia Horticulturae 74 (1998) 327–332

SCIENTIA HORTICULTURÆ

Subject Index

A

Abscisic acid
Root restriction affects leaf growth and stomatal response: the role of xylem sap ABA **74** (1998) 255

Acclimatisation
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

Agricultural engineering
Crop modelling in horticulture: state of the art 74 (1998) 3

Allium cepa
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity 74 (1998) 247

Alstromeria
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

Ancymidol
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

Artificial seed
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

Auxins
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

B

Bio-economic model
Model applications in horticulture: a review 74 (1998) 151

Bio-encapsulation
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

C

Calcium
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

Capsicum annum
Root restriction affects leaf growth and stomatal response: the role of xylem sap ABA 74 (1998) 255

Carnation cuttings
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

PII S0304-4238(98)00137-X

Catalase
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

CO_2 enrichment
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

Cold storage
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

Compatibility
Implications of phenolic compounds in graft incompatibility in fruit tree species 74 (1998) 195

Corm
Flowering responses of *Gladiolus tristis* (L.) after exposing corms to cold treatment 74 (1998) 277

Crop model
Crop modelling in horticulture: state of the art 74 (1998) 3

Cut flower
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

D

Decision making process
Model applications in horticulture: a review 74 (1998) 151

Decision problems
Model applications in horticulture: a review 74 (1998) 151

Decision support models
Model applications in horticulture: a review 74 (1998) 151

Deficiency
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

Dry matter content
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Dry matter distribution
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Dry matter production
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Dry matter
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity 74 (1998) 247

Dwarfism
Inheritance of male-sterility and dwarfism in watermelon [*Citrullus lanatus* (Thunb.) Matsum. and Nakai] 74 (1998) 175

E

Efflux
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Evaporation
Modelling water relations of horticultural crops: a review 74 (1998) 21

F

Flavanols
Implications of phenolic compounds in graft incompatibility in fruit tree species 74 (1998) 195

Flower stem production
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

Flower stem quality
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

Flowering
Flowering responses of *Gladiolus tristis* (L.) after exposing corms to cold treatment 74 (1998) 277

Forcing
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

Free-radicals
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

Fruit pruning
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

Fruit
Crop modelling in horticulture: state of the art 74 (1998) 3

Fruits
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Functional equilibrium
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

G

Gene
Inheritance of male-sterility and dwarfism in watermelon [*Citrullus lanatus* (Thunb.) Matsum. and Nakai] 74 (1998) 175

***Gladiolus tristis* L.**
Flowering responses of *Gladiolus tristis* (L.) after exposing corms to cold treatment 74 (1998) 277

Graft
Implications of phenolic compounds in graft incompatibility in fruit tree species 74 (1998) 195

Greenhouse
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Growth and development
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

Growth
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

H

Horticulture
Crop modelling in horticulture: state of the art 74 (1998) 3

Hydroponics
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

I

Implementation
Model applications in horticulture: a review 74 (1998) 151

Influx
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Information systems
Model applications in horticulture: a review 74 (1998) 151

Irigation
Thermal conductivity sensing for on-line monitoring and control of the moisture content in rockwool slabs 74 (1998) 305

L

Leaf area
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Light intensity
Effect of supplementary lighting and CO_2 enrichment on yield and flower stem quality of ***Alstroemeria*** cultivars 74 (1998) 267

Light interception
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Lindenmayer system
Modeling of spatial structure and development of plants: a review 74 (1998) 113

M

Male-sterility
Inheritance of male-sterility and dwarfism in watermelon [*Citrullus lanatus* (Thunb.) Matsum. and Nakai] 74 (1998) 175

Malus domestica
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

Markov process
Modeling of spatial structure and development of plants: a review 74 (1998) 113

Maturity
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity 74 (1998) 247

Mineral composition
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

Mineral ions
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Model building process
Model applications in horticulture: a review 74 (1998) 151

Model
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Models
Modelling water relations of horticultural crops: a review 74 (1998) 21

Moisture content
Thermal conductivity sensing for on-line monitoring and control of the moisture content in rockwool slabs 74 (1998) 305

N

Nitrogen
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Nutrients availability
The effect of medium disinfestation on cut rose productivity and on some chemical properties of tuff 74 (1998) 283

Nutrition
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

O

Optimization
Model applications in horticulture: a review 74 (1998) 151

Ornamental woody plant
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

Ornamentals
Crop modelling in horticulture: state of the art 74 (1998) 3
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

P

Partitioning
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Peroxidase
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

Phenols
Implications of phenolic compounds in graft incompatibility in fruit tree species 74 (1998) 195

Photoperiod
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

Photosynthesis
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Plant growth
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Plant
Modeling of spatial structure and development of plants: a review 74 (1998) 113

Preservation
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

Pyruvic acid
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity 74 (1998) 247

R

Regulation
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

Replant disease
The effect of medium disinfestation on cut rose productivity and on some chemical properties of tuff 74 (1998) 283

Respiration
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Root exudates
The effect of medium disinfestation on cut rose productivity and on some chemical properties of tuff 74 (1998) 283

Root formation
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

Root growth
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

Root restriction
Root restriction affects leaf growth and stomatal response: the role of xylem sap ABA 74 (1998) 255

Rooting
Formation and growth of roots in carnation cuttings: influence of cold storage period and auxin treatment 74 (1998) 219

Rosa×hybrida
The effect of medium disinfestation on cut rose productivity and on some chemical properties of tuff 74 (1998) 283

S

Simulation
Modeling of spatial structure and development of plants: a review 74 (1998) 113
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Starch
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

Stomatal conductance
Root restriction affects leaf growth and stomatal response: the role of xylem sap ABA 74 (1998) 255

Sugars
Changes in pungency of onions by soil type, sulphur nutrition and bulb maturity 74 (1998) 247

Superoxide dismutase
Active oxygen-scavenging enzymes activities in developing apple flowers and fruits 74 (1998) 183

***Syringa vulgaris* L.**
A new method for in vitro propagation of lilac (*Syringa vulgaris* L.): regrowth and storage conditions for axillary buds encapsulated in alginate beads, development of a pre-acclimatisation stage 74 (1998) 233

T

Thermal conductivity
Thermal conductivity sensing for on-line monitoring and control of the moisture content in rockwool slabs 74 (1998) 305

Tomato
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293

Transpiration
Modelling water relations of horticultural crops: a review 74 (1998) 21

Tuff
The effect of medium disinfestation on cut rose productivity and on some chemical properties of tuff 74 (1998) 283

Tulip
Effect of ancymidol in combination with temperature regime, calcium nitrate, and cultivar selection on calcium deficiency symptoms during hydroponic forcing of tulip 74 (1998) 207

U

Uptake rates
Modelling plant nutrition of horticultural crops: a review 74 (1998) 47

V

Vegetable
Crop modelling in horticulture: state of the art 74 (1998) 3

Vegetables
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Vernalization
Flowering responses of *Gladiolus tristis* (L.) after exposing corms to cold treatment 74 (1998) 277

W

Water content
Modelling biomass production and yield of horticultural crops: a review 74 (1998) 83

Water relations
Modelling water relations of horticultural crops: a review 74 (1998) 21
Root restriction affects leaf growth and stomatal response: the role of xylem sap ABA 74 (1998) 255

Water stress
Modelling water relations of horticultural crops: a review 74 (1998) 21

Watermelon
Inheritance of male-sterility and dwarfism in watermelon [*Citrullus lanatus* (Thunb.) Matsum. and Nakai] 74 (1998) 175

Y

Yield
Effect of supplemental light duration on greenhouse tomato (*Lycopersicon esculentum* Mill.) plants and fruit yields 74 (1998) 293
